Dr. Kuo-En Chang
President of Tunghai University

Invitation to the EASCOM 2025 at Hokusei Gakuen University

Greetings to our valued partner from Sapporo.

Thank you very much for your partnership and support with us for international education and student exchange.

Last year, in the academic year 2024, Hokusei Gakuen University concluded agreements with Hannam University in Korea and FPT University in Vietnam. We are pleased to announce that both schools have endorsed the purpose of EASCOM program and have decided to begin invitations to participate in this program. Therefore, we plan to invite a total of 24 students, four each from your university, the Catholic University of Korea (Korea), Hannam University (Korea), Dalian University of Foreign Languages(China), Maranatha Christian University (Indonesia) and FPT University (Vietnam), and hope to encourage active interaction with students from our university.

It will be appreciated if you can recruit four participant students and send back the application to us by **Friday, August 29th**.

We design EASCOM program to deepen and cultivate our students' international exchange and mutual understanding. We take advantage of being partner schools with you and are happy to offer all of our students this program. Thank you very much for your cooperation to make this program fruitful and memorable.
